Cleaning Tips for Your Water Type

Water Quality Type	Symptom	Effective Cleaners	Recommended Cleaner	Recommended Cleaning Frequency
Soft water	Water spots come off with soap and water	Any glass cleaner	Windex®	As needed
Hard water	Water spots are removed with vinegar	Any acidic glass cleaner	Solution of 50% vinegar and 50% water	Approximately once every 15 showers
Hard water with dissolved silica	Water spots are not removed with vinegar	Cleaners with mild abrasives	Soft Scrub® Lemon Kaboom® Shower, Tub & Tile	Approximately once every 10 showers

Cleaning frequency recommendations are guidelines only. Actual cleaning frequency will depend upon humidity, degree of water hardness, shower temperature and other variables. In cases with extremely high silica content, it may be helpful to squeegee as needed between cleanings.
