

# SUPERIOR SURFACE PROTECTION FOR YOUR SHOWER DOORS

Tekon U.S. Inc., Protective Treatment consists of a long-lasting chemical bond to the glass surfaces, which prevents hard water, soap and other stains from adhering to surface. This process is applied by your shower door manufacturer.

Dirt rinses away leaving your glass sparkling clear and streak free. Cleaning is far less frequent and much easier. Simply wipe with a TEKON Microfiber cloth once or twice a week and use no more harsh chemical cleaners of any kind! Your glass is protected perpetually by simply cleaning with Delta Wash as needed. Use on dry surfaces only. The Delta wash leaves your glass surface antistatic, repelling dust and keeping surfaces sparkling for a lifetime.

Cleaning with Delta ensures that your shower doors and glass sparkle for a lifetime.

**TEKON IS AVAILABLE THROUGH CERTIFIED APPLICATORS**

"BETTER THAN NEW"

*Lifetime Protection for Glass*

*Showcase Your Shower Doors!*

**Beyond Nano  
Covalent Bond  
Technology!**

**Keep Your Shower Doors  
SPARKLING CLEAN  
With TEKON Treatment**

## How does TEKON work?

TEKON fills in microscopic crevices of the glass surface with a permanent hydrophobic, and anti-static coating that repels water and dust.

Tekon creates a covalent bond that is Super Hydrophobic and long lasting. Tekon stain resistant and corrosion protection resist water and other contamination that would otherwise damage the surface. Bacteria, Mold and Fungus cannot spread keeping the surface more Hygienic and easy to clean.

Cleaning with Tekon's Microfiber cloth and Delta repellent wash restores the original finish for life.

# INSIST ON TEKON SURFACE PROTECTION TO KEEP YOUR SHOWER DOORS CLEAN & CLEAR ALL THE TIME

Treat yourself to clean shower doors without grime, water marks or soap stains. Makes your bathroom an elegant room.

**DO AWAY WITH MESSY STAINS AND MAKE YOUR SHOWER DOORS A SIMPLE, EASY PLEASURE TO KEEP CLEAN.**

## THE TEKON ADVANTAGE:

- Keeps your environment clean and chemically free.
- Maintains the brilliance of your glass surfaces.
- Reduces maintenance time.
- Eliminates corrosion, oxidation and staining.
- **NO HARSH CHEMICALS REQUIRED!**
- **ASTM TESTING**

Tekon protective treatments are based upon new, recently discovered characteristics of hydrophobic molecules that seal the glass surface in a unique manner superior to previous water-repellant products. Applied at the shower door factory by certified technicians, the TEKON treatment is smooth, lustrous and permanent. Water beads up and runs off like quicksilver.

## NO MORE SQUEEGEES

Maintenance consists of a quick wipe with a micro-fiber cloth.

## PROTECT YOUR ENVIRONMENT AND YOUR HEALTH

No need for toxic chemical cleaners that pollute the water and the air. No harsh fumes.

**Keeping Your Surfaces More Hygienic**

LIKE A ROSE, WATER  
JUST BEADS UP  
ON TEKON SURFACES.  
NOTHING STICKS,  
NOTHING STAINS
